## To Whom It May Concern:

I just wanted to comment on the product from Proband Direct. We have used this product several times for cuts sustained by our employees. All of our clerks are required to use a knife for cutting product to put on the shelves. I am one of 8 certified 1<sup>st</sup> aid providers in our store, and there has never been anything any easier to use. Over this past weekend one of our employees suffered a deep cut to his finger. We thought he would require stitches. We wrapped the finger with the Mesa and used the Protec protector and he was good to go. Checked on it a while later and it had sealed. Great product would highly recommend having this in any first aid kit.

Karen Bell

A handwritten signature in black ink that reads "Karen Bell". The signature is fluid and cursive, with a long horizontal stroke at the end.
