Dear Ed,

RE: Proband - bandage solution

Per our conversation, we are very pleased with the Proband solution for our Shop and first aid strategy. Our employees are able to provide themselves with initial first aid very quickly and return to work with minimal time lost. We find the product to be very durable in the harsh wet environment that we work with.

Thank you for introducing this product to our First Aid strategy.

Yours very truly,

Pierre J. Vachon
